

# Apricot Brandy

## Savoy Club

Age: 3 Years

Alcohol: 40%

Producer: SIS Industries, Karnobat, Bulgaria

This Apricot brandy has a warm to light orange color. The wooden casks impart complex flavors, which are assertive and firm. The apricots add fruity flavors with a touch of softness. Produced by a smooth, clear distillation of the essential flavor and aromas of apricots. Made from unsprayed apricots, slowly fermented and barrel-aged to make hard cider. Then double distilled over an open flame to produce the brandy. This apricot brandy is ideal either at room temperature or over ice after a delicious meal.

Savoy Club alcoholic drinks are produced using recipes which conform to European standards and criteria for quality
